Semester Project Part 1: Topic Selection

**Name of Website: Launch Site**

**Description:**

Explore the universe on our website dedicated to space launches and vehicle testing. Learn about space agencies worldwide, their missions, and future plans. Dive into the details of launch vehicle testing, engineering, and upcoming flights. Get clear graphics and data on test timings and locations, understanding the importance of each milestone. Discover the history of key space events and join us on a journey through the wonders of space exploration.

**Page names:**

A Homepage containing upfront information and important details/dates (HOME)

A page on space agencies (SPACE AGENCIES)

A page on future missions/milestones (SPACE DATA)

A page on history of space launches and missions (HISTORY)

And a page with general space stories and headlines (GENERAL INFORMATION AND USEFUL INFORMATION)
