Problems	Solution	Deta	Details		Other Functions		Drawbacks
Students need a better way to form study groups	Social Media app to allow students to make study groups and collaborate	students can make groups for others within that major/course to join	A group chat section that students in similar classes can communicate with each other	List stud and class that have groups formed	ents ses comr	municate tly with ific	Could need censorship for inappropriate groups
Students need a better way to collaborate	the app provides support for students when and where they need it	creating an account with a certain major	Possibly have specific spaces with resources for students	Students could use app to cr hangouts	e the and comr	to form municate clubs and ps	Could be used for cheating i.e. sharing test and homework solutions
Students can have problems finding help on assignments	Groups and clubs can advertise meetings and events	Hyperlink interactivity?	Image/video sharing?	Have of and invite-o groups			It might be difficult to keep it focused on school/students
Students need a way to connect with people with similar interests outside of classes	Have digital or interactive boards around campus to organize groups and meetings						is reliant on people to form and run their own groups
